Dr. Manthei called the question regarding granting a license to Dr. Jenkins. Dr. Mono moved to deny licensure on the basis of the applicant not having completed said residency and licensure requirements, Dr. Licata seconded, passed.

Dr. Jenkins stated that he didn't understand what qualifications regarding residency training that he did not complete. Dr. Manthei responded that the Board's concern was more on clinical competency, and he did meet the requirements, but that the training was insufficient to practice family practice. Further, that he didn't qualify because there was

no program in existence. Dr. Jenkins stated that his reading of the law stated that he met the residency requirements. Dr. Manthei responded that he qualified to apply for a license, but that mere qualification does not bind the Board to grant a license, further, that the reason for denial was based more on the Board not feeling he was clinically competent. Dr. Manthei stated that the training has been erratic.

Dr. Jenkins asked if he does gain approval for ACOFP training program, similar to Dr. Ghadishah, would the Board consider his request for licensure. Dr. Manthei stated that they would consider it. Dr. Jenkins asked how Dr. Ghadishah could be qualified for licensure with only 24 months of training while he had 43 months of training.
