V. DISCUSSION/ACTION 2015 LEGISLATIVE UPDATE, (Discussion/For Possible Action)

Ricardo Almaguer, D.O., Vice-President

Mr. Ling explained SB181. We need to advise Mr. Gresh how we should proceed with this particular bill. We looked at something similar when it was going to be a regulation in front of the Board of Medical Examiners. There were concerns raised by the Board about the concept of having these anesthesiology assistants. The bill looks pretty similar to the regulation in terms of how it would operate. Since we are in the bill, do we want to have some input to the legislature about the mechanism? This requires us to have a new licensing routine for the anesthesiology assistants. We submitted a fiscal note on this because we do estimate that there would be regulations we would have to do and other processes we would have to have in place including making changes in our computer system to accommodate a new licensing type. We have already told the legislature that it will cost us some money and we believe it is going to cost us more than what we get back in licensing fees. We need to know if you support the concept that you see set out in the bill and how you feel about us licensing a new class of licensees. A motion was made by Mr. Edwards to oppose the bill, seconded by Dr. Anthony, there being some discussion; and approved by the Board.
